

The Old Bridge to Hartford Church

Within moments you are away from the bustle of the town.
Warning that the footpath can flood in winter.

The Old Bridge

Castle Hill

Leave the hotel by the front door (i.e not into the car park). Cross the road to the traffic island then cross again down to the river in front of the office building. (Bridgefoot House). Simply walk along next to the River Ouse. At a playground you have to walk away from the water for 110 yards, but the path re-joins the river on the far side. At the end you reach the pretty and peaceful site of All Saints Church. Retrace your steps to return.
